## Aspect ratio test slide

This should be a square.

If this is a square, these
slides have been stretched from
4:3 to 16:9.

## MENACE

This page contains MENACE：a Machine Educable Noughts And Crosses Engine．MENACE was first built by Donald Michie in 1960 using 304 matchboxes．You can read about how MENACE works here．

You can play against MENACE below．As you play against it，it will learn to be a better player． You can find the source code for this implementation on GitHub．

O：MENACE
